

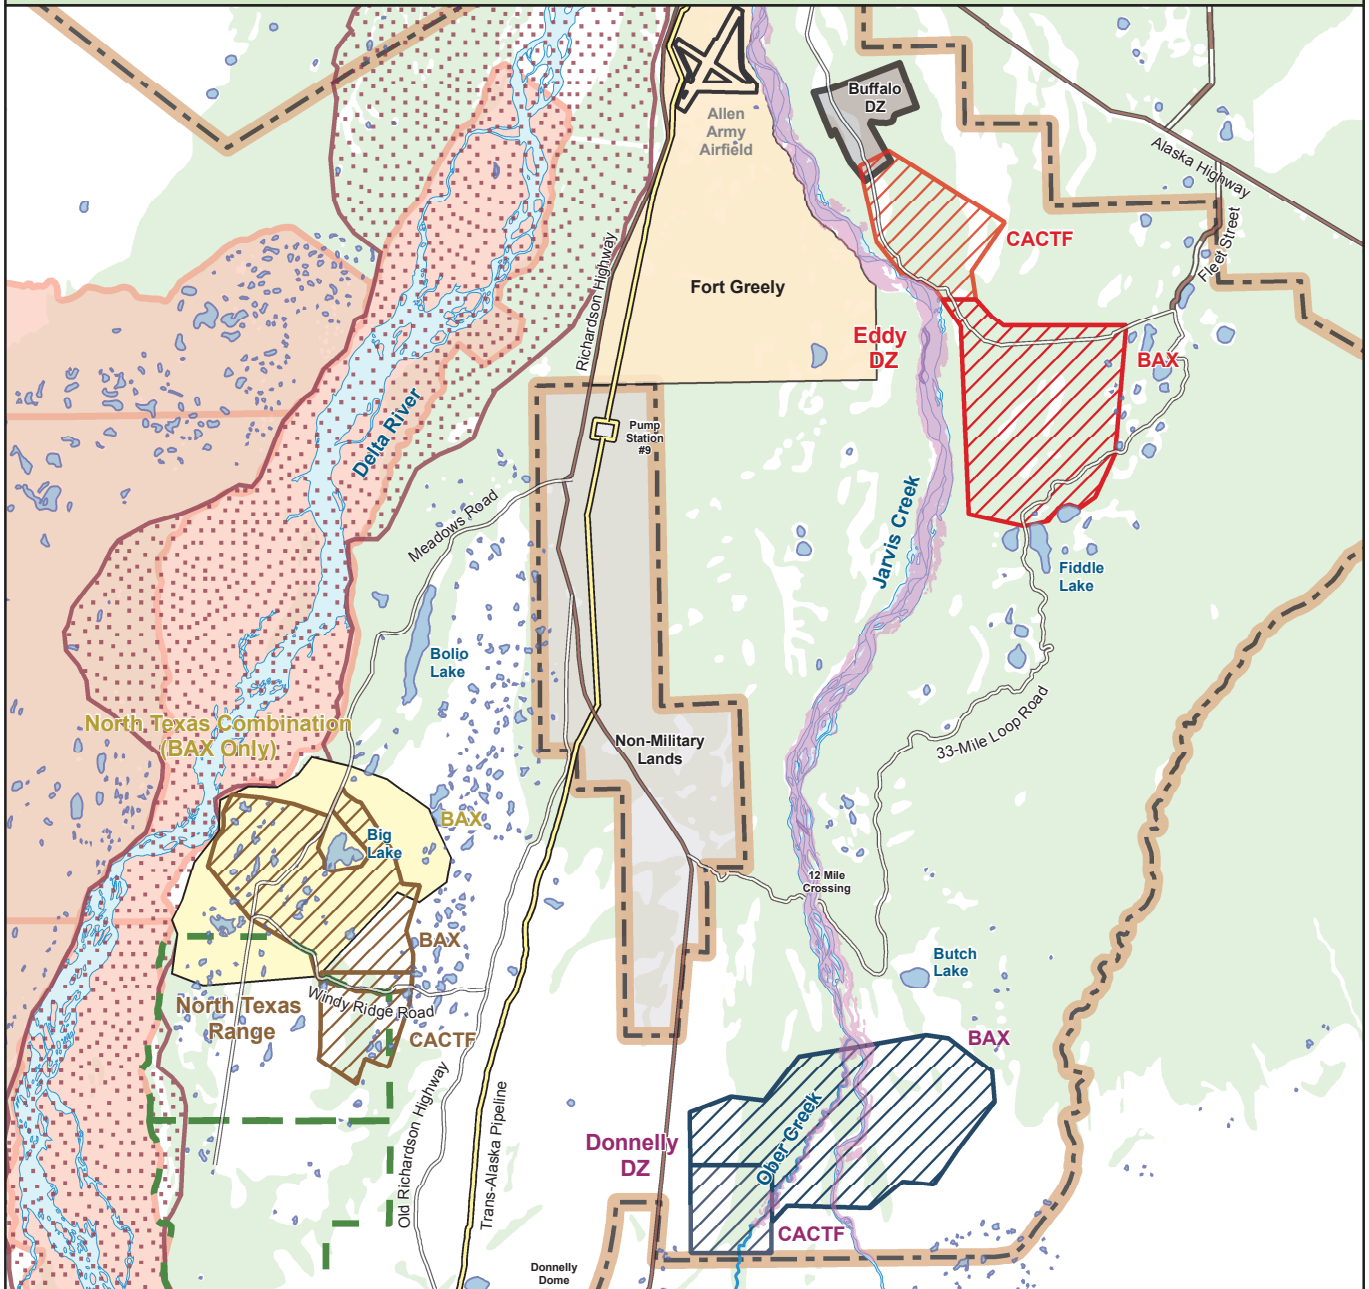

Figure 3.d

# Extent of Flooding under Non-Ice Affected Conditions

## Legend

- |  |                       |  |   |  |                                   |
|--|-----------------------|--|---|--|-----------------------------------|
|  | Installation Boundary |  | Vegetation  |  | 100-year Open Water Flooded Areas |
|  | Impact Areas          |  | Major Rivers                                      |  | Trans-Alaska Pipeline             |
|  | Fort Greely           |  | Lakes   |  | Roads                             |
|  | Existing Range        |  | Flooded Areas under 100-year Open Water Discharge |  | Primary                           |
|  |                       |  |   |  | Secondary                         |
|  |                       |  |   |  | Tertiary                          |

\* Note that North Texas Combination incorporates the Eddy Drop Zone CACTF as well

Scale: 1:150,000
